SUBJECT: Financial Investigation

STATEMENT

In the Fall of 2017, Coahoma Community College discovered discrepancies in its financial records and mismanagement of funds as a result of embezzlement activities. The institution, in turn, terminated those individuals involved and immediately notified its board of trustees and the appropriate agencies/authorities.

Coahoma Community College has fully cooperated with the investigation and is adamant about holding all persons accountable for their actions. The institution will make a conscientious effort to recover all monies that were taken from CCC. The College has implemented enhanced accountability controls in order to decrease the likelihood of these unfortunate behaviors happening in the future.
